The George Washington Carver Summer Research Internship Program at Iowa State University, Ames, Iowa, promotes “science with practice” by providing research opportunities under the direction of College of Agriculture and Life Sciences (CALS) research faculty members.

Program Dates: Monday, June 10, 2023 - August 5, 2023
Undergraduate students are provided: Campus Housing, meal plan, round-trip airfare, and a stipend of $4,000.

Apply here: https://rebrand.ly/qcgmelb

Projects/research activities vary based on the expertise of the faculty mentor to whom the intern is assigned. We seek undergraduate students interested in animal science, environmental science, plant science, agronomy, biosystems engineering, agricultural education, biology, chemistry, natural resources, genetics, horticulture, and entomology

Programming
Interns are required to:
• Participate in a professional experience which requires 30-40 hours per week
• Complete a research project in coordination with their faculty mentor
• Prepare an abstract and written report
• Present research during the summer research colloquium

To be eligible students must be:
• U.S. citizens or permanent residents
• GPA - 3.0 or above

*Application Deadline Extended: February 1, 2023
*Residence Assistants are available evenings and weekends for intern support and engagement.
